SUMMARY

Passionate Computer Science student with hands-on experience in building full-stack applications, academic projects, and personal experiments showcased on GitHub. Seeking opportunities to apply technical knowledge, contribute to impactful projects, and grow into a professional software engineering role.

PROJECTS

Meeting-Sync (Meeting-Sync Web App) Mar 2025 - Jun 2025

- Maintained a well-structured approach. Focused on code maintainability, scalability, and reusability.
- Integrated Socket.IO for real-time updates so participants instantly saw booking status and availability changes.
- Solved critical issue of overlapping bookings by creating a conflict-detection algorithm for time slots.

Gadget IT Jul 2024 - Dec 2024

- Developed secure login & signup flows with password hashing and session management.
- Built RESTful APIs with Express.js for handling CRUD operations efficiently.
- Optimized database queries to fix performance issues during bulk record fetches.

Database Project (Inventory Management System) Mar 2024 - May 2024

- Designed relational database schema for products, users, and orders ensuring referential integrity.
- Implemented role-based authentication so only admins could manage inventory.
- Improved user experience by creating intuitive EJS views and streamlining CRUD workflows.

EDUCATION

Bachelor of Science in Computer Science

North East University Bangladesh Jun 2022 - Jul 2026

- Relevant coursework: Data Structures & Algorithms, Full-Stack Web Development, Database Systems, Artificial Intelligence Fundamentals.
- Actively participate in coding festivals, hackathons, and personal projects to enhance practical skills.

Higher Secondary Certificate (HSC) Aug 2019 - Aug - 2021

Universal College Sylhet

- Focus on Science stream (STEM program). Gained a solid foundation in science, with supportive teachers who encouraged learning and curiosity. Developed an early interest in technology and programming.

ADDITIONAL INFORMATION

- **Technical Skills:** Practical knowledge in full-stack development and system design. Can design database schemas and plan system architecture for web applications.
- **Languages:** English (intermediate), Bengali (native)
- **Certifications:** I'm a self-taught developer. Built multiple academic and personal projects (see GitHub)
